Synopsis

"You can't swing a dead cat at a bridal shower without hitting a straight chick who's slept with another woman, who's thought about it, or who's ready to make the move as soon as someone breaks out the booze." Such are the incisive pearls of wisdom to be heard from straight chick and girl-on-girl dabbler Jen Sincero, author of The Straight Girl's Guide to Sleeping with Chicks. A deliciously sexy how-to guide, it gives curious straight women the complete inside scoop on girl-on-girl action - from pickup lines and virgin jitters to threesomes, techniques, and toys. Drawing on personal experience and hundreds of interviews with straight girls who've slept with lesbians, straight girls who've slept with straight girls, lesbians who've slept with straight girls, and straight girls who've done both or neither, Sincero covers the A to Z of the experience including: Obtaining a visitor's pass to the girls-only club The super-huge importance of sticking your hand down your pants The straight girl's starter kit - from nail clippers to cocktails to get her in the mood "Gettin' Some 101" - positions and techniques "And Boy Makes Three!" - how to have a threesome that's fun for all Suggestions for further viewing and listening and much, much more Packed with expertly toned advice that is at once laugh-out-loud hilarious and fundamentally practical, The Straight Girl's Guide to Sleeping with Chicks is ideal for any woman looking to spice things up with a boyfriend, break the ice with a best friend, or simply add a few just-in-case items to her sexual menu.

Customer Reviews

Jen writes so honestly, straight from the heart. This is, and I wish there was a more eloquent way to put this, a cool book. She does not shy away from the real deal facts of love, sex, exploration... in

fact, she doesn't shy away from anything. It's as if you're reading a book from a regular gal who has one freaky sidenote, she does not get embarrassed! Which means you won't get embarrassed. Most of your fears will be allayed and man, once you are done, you will be fully versed on the inner workings of the female body, yours and others, and what turns said body on. Let's just say that can be very helpful.So, this is the deal, if you've ever thought of switch-hitting or just wanted to know how it actually works, Jen tells you in graphic sapphic detail (delightful illustrations are a plus. I don't know who did them but they're hilarious and cute and informative). She also provides resources that will help you "get it on," even if you're not ready to actually get it on with another person. And if you're a girl and you really do want to just go out there and see what's what with the ladies, there are certain details here that will make you seem like an expert in what up until now might be unchartered territory. It takes away the scary and the stigma by giving you all the answers to your questions and more answers to questions you will be glad you were given, if you actually get a girl to go home with you.I think what's refreshing is this could have easily been just another sleazoid book or a "Ha ha, look what I got you on your wedding night!" party gift. Instead it's an informative, smart, emotionally evolved, well-designed, entertaining and humorous "how-to" guide.

I thoroughly loved the premise of this book, namely telling other "straight" women that it's ok to sleep with ourselves. I thought it was refreshing since, for once, the author wasn't a born lesbian releasing herself from society's repression of a too-tightly clasped underwire bra. She was instead a hetero female - who wanted to remain as such - but was basking resplendently in her new found sexual awakening, so much so that she wanted to share it with others by writing a book.Some of the author's best revelations come early (in the introduction); that women's bodies are unbelievably soft, and that making love to another woman is very much like making love to one's self. Fortunately, they got better (and fresher). Because women don't deplete themselves during sex, their stamina can be greater - and sex can last all night until daybreak. Also, two women together are freer to trade the dominant role back and forth, something that a woman might not be able to do with her man, not just because of social norms - but because the respective equipment is just too distracting -- and one set may be too difficult to reclassify in a more subservient role. (I'm not sure that I would buy that men can't be subservient, especially with all the S/M out there. But I would agree that taking the dominant role, as a woman, is sometimes easier - with another woman - mainly because her body is so soft and enticing. Nothing a man can offer, for example, is as seductive as a nipple thrusted wantonly into one's eye, or between one's lips. And a woman's genitalia -- even when you're under it - isn't going to be as domineering or as insistent as a man's.)Her last revelation, of

course, is that making love to another woman is exciting - precisely because it is forbidden.
