This book is just absolute nonsense. You can google all the information for one. Anyway good luck in this. Thanks.

This book actually told me information that I needed to know such as how to build a passive income and the obstacles that would get in my way when trying to build this passive income. This is a great

book with tons of resources and the book shows you a very practical method for creating automated systems in order to earn passive income. The book is packed with essential knowledge related to money, personal finance and business.

Clearly fake reviews as this book is the rough edited cut, with all the cross outs and lines drawn through the words with the errors still present and not the corrected copy. This author cannot be serious to publish a book full of corrections that were not corrected. This was not at all ready for publishing.

Great book on making passive money. Well described with good examples. It inspires one to make more & more easy money with online work. Author has good knowledge & I want to thank the author for sharing his knowledge in this book. Worth purchasing & best reading.

Be Your Own Boss and Make Money in Your Sleep!-- How can you say NO to this? The term Passive Income is something new for me so I immediately downloaded this book to learn what it's all about. I appreciate the author's way of explaining the power that having leverage can do. I never thought of it that way. Very creative!After reading this book, I realized that indeed, anyone can earn massive income. Just that sometimes, believing is hard when it is online that we're talking about. You know, with all the scams and lies in the internet. However, this book has been thorough in explaining the many income generating opportunities like Kindle Publishing, FBA, Niche Websites, Affiliate Marketing, Email Marketing, and so much more.

Having a passive income is really necessary nowadays because most expenses needed to survive in everyday life gets higher and higher. I am looking for ways on how to actually have a passive income. While browsing books here in Kindle, I came across with this book which serves as a useful guide for me. This book provides list of possible passive income generating activities like writing, FBA, marketing and a lot more. Brief discussion for each opportunity were given which really helps starters like me. The book might be short but the information provided in here are enough to gain ideas on what passive income generating activity will I make. Nice book!

Awesome! This book is an ideas generator for making more money! The author is very detailed and descriptive with these ideas and if you can't find a new way to make money from this book, you are not trying hard enough. These ideas work and I've put several of them to use myself,

especially Book writing. So much worth reading!

Given the length of the book, claiming this to be a "COMPLETE" beginner's guide was a little too bold BUT I'm not saying it's a bad book. Actually, I've gathered several ideas on the passive income I wanted to invest to. It's concise and straightforward, which I liked and Simon Wolf covered the fundamentals of passive income and encouraged his readers to give it a try, which I would. I have yet to choose which idea to invest to but I already have a list (which I got from this book). Overall, it's a good grab and would recommend this book for those who are considering passive income.
