The Scholarship System: 6 Simple Steps On How To Win Scholarships And Financial Aid

Synopsis

The Scholarship System provides you with a step-by-step guide that you can actually implement in fewer hours than a part-time job yet realize the benefits for more than four years later. With proven strategies, examples and testimonies, The Scholarship System gives you a guide to make the scholarship process as easy and painless as possible regardless of your age, GPA, financial situation, or family background. With these same tactics, Jocelyn Paonita managed to bring in over \$125,000 in scholarships and financial aid, paying her entire college bill and giving her extra cash each semester. She was able to focus on her higher education rather than constantly worrying about money and how much student loan debt was piling up. With The Scholarship System: 6 Simple Steps on How to Win College Scholarships and Financial Aid, you can do the same thing too!

Customer Reviews

I think one of my favorite parts about the book is the free audio book addition. Lately I've been doing a lot of driving so it is nice to listen to these self help how to guides while I drive. Definitely makes me feel like I am taking advantage of my time, so props to the author on supplying the audio book for free. On to the actual book: It is a brief 70 pages or so. Which is typically a good sign to me. Anytime I download a self help book, I am looking for clear concise content. Any self help book that is several hundreds of pages long, is typically filled with fluff and non useful information. The book is broken into the following 6 steps
Step 1: Getting in the money making mindset
This section features some content that I've seen in other books before, but the purpose of providing this content has a a

definite purpose and enriches the rest of the book.

Step 2: Understanding College Financial Aid

101 This section is HUGE for High School Seniors about to go into College, Parents sending a child to college for the first time, or anyone who has not waded through the financial aid process themselves. The content in this section is available elsewhere online, but not all in one place, and not in such a clear and concise format.

Step 3: The Hunt is On: Finding Scholarships That Have Little Competition Yet Can Fund Your Free Ride

In this section we encounter brand new content straight from the source. The \$5 value is covered in this section tenfold.

Step 4: Heat Up Your Application - Successful Strategies on Becoming a Competitive Candidate

At first glance this seemed a bit of common sense to me. As I was reading I caught myself.
