Customer Reviews

I bought this book for school and was pleased at how fast it arrived and that it was the correct book. As a textbook it is laid out pretty well, however there are some typos and I think the text could be a little better organized within each chapter.

As far as textbooks go, this one is very readable and thorough. Some of the ways that the more touchy-issues are described (ex: religious things) are a little loaded at times, and usually inaccurate to some degree. But, overall, a great book and a good choice if you're trying to learn about the issue.

Great rental price. The quality of the text itself was as described and arrived in a timely manner. The passages in the book were not a comfortable read. I think because it is a general intro it jumps too

quickly between topics. Not smooth

Good price. This text book is part one and two. The one at my school was only part one and twice the amount I got this one for. AND it was used at the school too! As well as the conditions were about the same. D:

I had to rent this book for a class. The material is fantastic but the condition of the book was horrible. Upon opening the box it came in I noticed that it looked very used. As I started my assignments for the Arts and Culture class I am taking, I noticed that the pages were falling out. The more I turned the pages, the more the pages started releasing from the binding. It is apparent that this particular copy has been used a lot.

Book came falling apart. I'm basically reading a loose leaf book. I mean I get that these are rentals but I at least expected to get a book that was in decent shape.

It was so easy to rent, and saved me a lot of money. Would defiantly use again if I need to. Easy to extend the time of use and return was easy. I suggest you save the box to return it in or use a bubble bag.

Awesome book. I bought the book because I needed it for my college class I am taking. I like it so much I plan on purchasing it later on down the road!!
