My Early Life

Synopsis

One of the classic volumes of autobiography, *My Early Life* is a lively and colourful account of a young man's quest for action, adventure and danger. Churchill's schooldays are undistinguished, but he is admitted to Sandhurst and embarks on a career as a soldier and a war correspondent, seeing action in Cuba, in India, in the Sudan - where he took part in the battle of Omdurman, of which he gives us a stirring account - and finally in South Africa. Taken prisoner by the Boers, Churchill makes a daring escape. Back home he embarks on the political career that is to make him one of Britain's most distinguished parliamentarians. First published in 1930, when Churchill's most testing time still lay ahead of him, *My Early Life* is memorable both as an adventure-story and as an account of the events and influences that helped to shape the career of a great Englishman.

Book Information

Audible Audio Edition

Listening Length: 12 hours and 39 minutes

Program Type: Audiobook

Version: Unabridged

ASIN: B00LP66ORG

Best Sellers Rank: #47 in Books > Audible Audiobooks > History > Europe #54 in Books > Biographies & Memoirs > Historical > Europe > Great Britain #104 in Books > History > Europe > Great Britain

Customer Reviews

What surprised me most about this book was the humour. I expected the familiar story of our greatest leader's early life, I expected an insightful account of Britain in the late 19th and early 20th centuries, I expected a stirring tale of a young man who was a practical adventurer just as much as politician and author. I didn't expect to laugh out loud regularly for much of the story. If you've seen the film "Young Winston", based on this book, you will be familiar with some of the events. Other programmes and books have adequately explained his war leadership and his contribution to many serious political issues. However, the films and documentaries I have seen fail to capture the mischievous spirit communicated through this book. This a fascinating study of a bygone age, when

Britain maintained a great empire, when most politicians took the title Lord, and when politics and army officership were sports for those of independent means. Interestingly despite his aristocratic bloodline Churchill's family was not particularly wealthy and some of the most poignant lessons stem from this. Sometimes the sentiments in the book appear bloodthirsty or imperialistic, but you have to realise that at least part of the time Churchill is writing satirically, reflecting common values which you suspect he did not always share himself. When he is sincerely expressing his own serious ideals it is usually easy to detect. These beliefs link both his skilful analysis of historical events, and Churchill's account of his own development. For example he explains the British government's failure to be magnanimous after the early victories of the Boer war as the reason that a relatively fast-moving and honourable conflict descended into "shocking evils" on both sides.
