Customer Reviews

Koomey gave me clear examples on how to save money on my personal income taxes as an entrepreneur. I own two small businesses and want to start another one, so his outline gave me ideas to talk about with my lawyer and accountant, which they said will work for me. Using my Roth IRA money to invest in my own business instead of in a mutual fund, and how to do it step-by-step, was particularly useful. I am a business owner not a tax lawyer so Koomey's clear writing style and use of detailed examples was good because it made the ideas actionable for me. You can read the book in about two hours, jot down a few ideas, and call your own accountant from there. Good use

of time.
