Customer Reviews

Geddy Lee is one of the true masters of the bass and this book is a great way to venture into his world. Having the lyrics along with the tab are a great help for bassists having trouble finding their way. While this book won't make you play like Geddy, it will make it possible to play along and have some fun at the same time.

It's great! I would hope to be able to find more Rush bass tabs on other albums available. This is a really great collection of RUSH songs and the bass riffs that Geddy plays are extremely difficult to learn my ear. Thanks for making this.

Some reviews say it's not exactly accurate. I think it might depend on which recording you're playing

to. I found a couple off notes, but it's also difficult to keep an 8:00 song to a couple pages, so I think they make some exceptions and get the general groove/note choice. I like it so far. Plenty of songs to choose from!

Relatively spot on, but some of the positions they have you play in are just plain wrong (at least in comparison to how Ged does it). Ex. playing the bass "solo" in "Freewill" in mostly open position and the same for "Closer to the Heart." That just makes it more difficult and is not how Ged plays it.
