Composition & Performance > Techniques

Customer Reviews

Knowing absolutely nothing about the accordion, I wanted a scale book to help me learn the notes so I can sight-read music. The book starts with a simple scale and then jumps into dancing around the button rows. Not fun. Not interesting. I had to sit down and work out my own scales with a couple of other books.

I have tried different accordion books and this is one of the most understandable and easy to read. Definitely recommended

Mmm could be better
