Customer Reviews

The timeless lessons on how to manage your money are priceless. I like how they are presented in stories through the eyes of Babylonian residents. It makes it easier to remember the stories and lessons of wealth management. This edition is clean and very well laid out. I am starting to pay myself first and recognizing the mistakes I've done in the past from bad investments. Love this book, I highly recommend it to read also Think and Grow Rich.

Before this book, I was in debt. After putting it's principles to work, I am now financially stable, have an emergency fund, pay my bills in advance with wiggle room. Truly changed and stabilized my life.

This book is a must-read for anyone looking to become financially educated. It's stating known facts but in a storytelling what that makes it all feel more feasible to save and earn money from your savings.

I thoroughly enjoyed reading this book. I learned from it. All ambitious, aspiring young people should read this book. Poverty is not an accident, it is a way of living. Wealth creation is also a way of living. Which will you choose?

The stories that provided the basic concepts of the treatment of money that could lead to successful finances are an excellent read and easy to follow.

1 of the greatest books ever written about building wealth stick to the principles in this book and you will definitely have a wealthy future

Amazing teachings for anyone interested in being wealthy and succesfull. Quick to read and full of great teachings that still apply today.

I have hopefully learned to pay my self and to pay off my loans. The book has some very interesting facts you can apply to today's living
